4. From here, you will see your show tickets along with their new dates. *Please note that if you had tickets printed before, they will be honored. We will not be sending new printed tickets, so using your mobile tickets to track dates is helpful!*

5. Click on the show of your choice to view your tickets.

From here, you can view your ticket details (including QR code to scan for venue entry).

You will also see an option to add to your Phone Wallet, which we recommend saving in preparation for your show. This will make for a quicker entry experience!
