### **Troubleshooting Tips:**

- You must present the live SafeTix to redeem your tickets. A screenshot is **not** sufficient.
- Broadway Season Seat Members are **not** able to access their tickets by logging directly into Ticketmaster.com.
- At this time, Broadway Season Seat Members are **not** able to access their tickets through the Ticketmaster app.
- If using an iPhone and need to access Account Manager as a Broadway Season Seat Member, be sure you're using Safari. Other browsers can cause technical issues.
- If you have many apps or browser windows open, it helps to close them or clear your cache in order to help Account Manager and/or the Ticketmaster app function more easily.
- If using Google Chrome or another browser, the AA icon in step 9 can be substituted with the three dots used to manage tabs.
- Adjusting the font size on your webpage may allow you to access the “Add to Apple Wallet” button if other troubleshooting methods have failed.
